

Barber collection

Thank you for purchasing this Barber collection. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Pre-assembly preparation

Please ensure instructions are read in full before attempting to assemble this product

Necessary tools

Please check the pack contents before attempting to assemble this product. A full checklist of components is given in this leaflet. If any components are missing, please contact the retailer from whom you bought this product.

This product is **HEAVY**, it should be assembled as near as possible to the point of use. **TAK E CARE WHEN LIFTING** to avoid personal injury and (or) damage to the product.

This product takes approximately **20 MINUTES** to assemble with **2 PEOPLE**.

The fittings pack contains **SMALL IT EMS** which should be **KEPT AWAY FROM YOUNG CHILDREN**

Read this leaflet in full before commencing assembly.

PLEASE KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE

Fittings and parts checklist

A	Cabinet x 1	
B	Legs x 4	
C	Shelf x 1	
D	Shelf supports x 4	

Step by step assembly instructions

Step One

With 2 people, carefully place the cabinet (part A) upside down on a soft, flat surface near where the unit will be used. Locate the legs (part B) and tighten by hand as shown below. Ensure all legs are fully tightened before use.

Step Two

With 2 people, carefully turn the table over and place in position.

CAUTION!
Please take care when lifting, this unit is very heavy! Do not drag the unit when moving, must be lifted to prevent damaging the legs!

Step Three

Slide open both tambour curtains. Locate the shelf supports (part D) as shown below. Please note, the shelves are adjustable- simply select an appropriate height for storing your devices.

Step Four

Place the shelf (part C) in position as shown below.

PLEASE READ!

This veneered cabinet top has a natural open grain finish. Please read the care guide thoroughly. We recommend using mats and wiping up spilled liquids. Avoid placing plant pots or vases without waterproof mats to prolong the life of this product.

Care and Maintenance

Wood furniture

- Wood displays different grain patterns depending on which way they cut - for example, the 'medullary ray' which can appear as a mark of good quality timber - these are just characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and rustic.
- Wood veneers also allow distinctive patterns to be created on flat surfaces, such as table tops and drawer fronts by the way the slivers are arranged.
- All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

- Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.
- Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.
- Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.
- Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

Safety instructions

- Never drag furniture when moving it, always lift it.
- Periodically check all fixings to ensure none have come loose and re-tighten where necessary.
- Please take care when handling or moving the furniture, careless handling may cause damage or injury.
- Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.
- It is recommended that before moving heavy objects to a new location they are completely disassembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

WARNING:

It is **STRONGLY RECOMMENDED** that you **ANCHOR** this product.

Toppling furniture can cause serious injuries and death.

This product has not been fitted with an anchor strap/bracket* (**select as appropriate*). To prevent your furniture from tipping forward it is strongly recommended that you **securely attach this product** to a wall or other solid surface, using the anchor straps/brackets provided and appropriate fixings.

IMPORTANT:

Regularly check that anchors are securely maintained.

Use safety **drawer locks** to prevent children climbing.

Stability of tall items may be affected by thick pile carpet or uneven floors.

Do not place unanchored televisions on furniture

CAUTION:

For your safety when attaching the anchor fixings, please note the following:

- Check for any electrical wires or plumbing inside the wall before drilling any holes (if you are unsure please seek professional advice from a qualified tradesperson)
- Walls are constructed from different materials, for example, masonry (solid brick) or plasterboard lined cavity walls (hollow). It is important that you use the appropriate wall fixings for your wall type.
- Your local hardware store will have the necessary drills and fixings and can offer advice if needed. If in doubt, engage the services of a qualified tradesperson to install and anchor the product.

ANCHOR points fitting

F x 1

G x 2

H x 2

I x 1
